

NAVIGATING THE FUNDING MAZE

Commercial Project Finance

EnergyServ, deliver mid and large-scale energy efficiency commercial projects throughout Ireland. We work for large businesses, SME's, Farm Enterprises, and Fishers bringing our energy efficiency expertise to assist these clients significantly reduce energy costs and deliver meaningful carbon reductions.

We understand that energy efficiency projects can be capital intensive for businesses to complete. With that in mind, we have partnered with **Alternative Business Finance Brokers (ABFB)**

<https://alternativefinance.ie/>, a specialist energy efficiency finance broker. **ABFB** has access to an extensive range of lenders, which make quick decisions and provide low-cost finance facilities. One call to **ABFB** on **053 918 4712** or alternatively an e-mail via <https://alternativefinance.ie/contact-us/> will immediately commence the loan application process, which is streamlined, very efficient and designed to secure timely loan decisions. This enables rapid drawdown of funds so the project can commence.

Alternative Business Finance Brokers can assist businesses with accessing finance under the SBCI Energy Efficiency Loan Scheme. This scheme provides unsecured loans to businesses of up to **€150,000** over 10 years, at very competitive rates of interest.

Loans from €150 000 + for commercial energy efficiency projects.

Contact Alternative Business Finance Brokers today, tell them about the project to be delivered by **EnergyServ** together with your funding requirements, and they will immediately commence identifying the best loan product and to meet your needs in partnership with one of their non-bank lenders.
